EDUCATION

Bachelor of Business Administration (Management and Finance Co-op)	Sep 2018 – Jun 2023
University of Toronto Scarborough Campus	Toronto, Canada

WORK EXPERIENCE

Senior Analyst, Market Risk UX Reporting/Market Risk Analytics	Aug 2024 – Jan 2026
BMO Capital Markets	Toronto, Canada

- Monitored and analyzed key risk metrics (e.g., Greeks, VaR) to provide insights and recommendations, ensuring alignment with the bank's risk appetite and strengthening risk management.
- Led enhancements to two major risk reporting processes, streamlining workflows and reducing manual intervention, improving efficiency and minimizing operational risks by up to 80%.
- Designed, implemented, and maintained risk reporting frameworks using SQL, Python, Excel VBA, and Bloomberg to improve data accuracy and investment decision-making.
- Investigated market risk excesses and counterparty credit risk (CCR) exposures, identifying calculation discrepancies and providing data-driven recommendations to senior management
- Collaborated with risk teams (FRTB, Capital Calculation, etc.) to deliver high-quality reports that strengthened investment risk assessments and capital allocation strategies.

Market Risk Analyst, Market Risk Operation	Feb 2023 – Aug 2024
BMO Capital Markets	Toronto, Canada

- Conducted control testing on critical business processes to assess operational risk exposure, identify weaknesses, and recommend risk mitigation measures for improved compliance.
- Collaborated with regulatory teams to strengthen risk governance by ensuring alignment with evolving financial regulations and addressing key compliance concerns.
- Updated and enhanced the Market Risk Process, Risk, and Control Library, ensuring that risk management documentation remained current and aligned with best practices.
- Engaged with cross-functional teams, including trading, risk management, and regulatory compliance, to communicate key risk findings, foster collaboration, and drive strategic solutions

Summer Intern, Advisory FRM Practice	May 2021 – Aug 2021
KPMG Advisory (China) Limited	Beijing, China

- Conducted due diligence on financial institutions, participating in over 30 consultation meetings, expert discussions, and interviews to gather critical risk management insights.
- Assessed client financial statements and internal risk frameworks, comparing practices against industry standards to develop comprehensive risk evaluation reports for advisory projects.
- Performed walkthrough tests and data verification procedures to identify risk factors, ensuring the credibility of internal databases and financial controls for effective risk assessment.
